

GraphX Direct will place your commercial sign panel (4x8, 4x6, or 4x4) on U-channel posts at your listing location.

We utilize standard, 8-foot high green-painted steel, traffic grade u-channel posts for durable, eye-catching placements. Placement within Allen county includes rental of the posts, all locations outside Allen county require an additional post rental fee.

Commercial Sign Placement Policy

GraphX Direct will make every effort to install/remove the requested sign **TWO BUSINESS DAYS** after receipt of your request. Major holidays excluded.

The **deadline for receipt is 5:00 PM**. A request received on Friday will be installed/removed by the end of the day on Tuesday. Saturday and Sunday are not considered business days.

Use email or our website, www.GraphXDirect.com, to request your installation/removal/repair of signs to prevent miscommunication.

Commercial placement request **must include an overhead map** with your requested sign location clearly marked.

Vacant Lots or Land **must be marked in advance** by Broker to ensure prompt and accurate placement.

Realtor/Broker is responsible for underground utility locating and marking.

Installation includes driving **TWO** 8-ft. high green u-channel posts approximately 24 inches into soil or loose gravel. **Posts are driven into asphalt only with written approval and subject to additional charge.**

We will service the install once for installation errors or unsatisfactory location of sign and **store your panels at no charge**. A \$30.00 fee will be charged for additional trips, customer refusal of install, or invalid address/unable to find property.

U-Channel posts remain property of GraphX Direct. You will be charged for replacement if posts are not found at time of removal.

Due to Right-of-Way easements, traffic sight lines, sidewalks, and buried utilities, there is a possibility the sign will not be installed in the most ideal location.

Installation Fee

Removal Fee
